We invite you to become a sponsor of the 8th World Conference on Research Integrity (8th WCRI), which will be held from June 2 to 5, 2024, in Athens, Greece. The biannual WCRI s cater for all disciplinary fields, all professional ranks, and all career stages. It involves all stakeholders in research integrity, including universities, research institutes, research funders, publishers, journals and governments. The conferences are lively and interactive, and the program consists of a mix of research findings, reflection and policy development. Conferences typically produce an influential overarching statement, such as the Singapore Statement, the Hong Kong Principles and the Cape Town Statement.

The WCRI s are truly international and never go to the same continent twice in a row. Hosting a WCRI gives a strong boost to building awareness of the importance of research integrity in the hosting country and substantially stimulates research and education on responsible research practices locally.

WCRI s take a strong view on ethnic, gender, geographical, disciplinary and career stage diversity, and ensure that this is reflected in the program, the keynote speakers, the committee members, and the participants. We give special attention to early career professionals, and we organise a doctoral forum, workshops, and meet-the-expert sessions for them during the conference.

Each WCRI emphasises a specific theme, but all cater for the whole range of research integrity issues and responsible research practices. This also means that the driving forces of the individual and collective behaviour of researchers that influence research integrity will get substantial attention. Specifically, these driving forces concern the skills and virtuousness of the individual, the local research climate, and the incentives of the research system as a whole. The 8th WCRI will put thematic emphasis on catalysing the translation of research into trustworthy policy and innovation.

We expect about 500 – 600 participants on site and a similar number of virtual participants. To realise diversity in participation we want to keep the registration fees relatively low and to offer many travel grants for active participants from low- and middle-income countries. For this we need a substantial sponsor income.

Please consider becoming a sponsor of, or an exhibitor at, the 8th WCRI, and connecting your organisation with our endeavour of promoting research integrity. The possibilities for sponsorship are described in this brochure. Don’t hesitate to contact us at info@wcri2024.org if you have any questions about the conference or the sponsorship options.
About WCRIF & the 8th WCRI

WCRIF
The World Conferences on Research Integrity Foundation (WCRIF – www.wcrif.org) was established in July, 2017, as a non-profit organisation with its official seat in the municipality of Amsterdam, The Netherlands.

The first five World Conferences on Research Integrity were convened before the creation of the Foundation. They were organised by co-chairs and planning committees.

Mission of the WCRIF
The mission of the WCRIF is to promote research integrity through support for the ongoing organisation and development of the World Conferences on Research Integrity and all related activities. The WCRIF fulfills this mission by:

• promoting the continuation of World Conferences on Research Integrity on a regular schedule;
• ensuring organisational continuity between conferences;
• maintaining the WCRI website; and
• publishing and disseminating guidance or policies agreed to at World Conferences on Research Integrity.

The WCRIF is managed by a Governing Board of at least five and at most nine members who serve four-year terms. The Governing Board elects from its members a Chair, a Secretary and a Treasurer, who constitute the Board’s Executive Committee.

About the 8th WCRI
The World Conference on Research Integrity (WCRI) is the largest and most significant international conference on Research Integrity and Responsible Conduct of Research.

Since its inception in 2007, seven world conferences have been hosted in countries around the world, with the most recent in South Africa in 2022. A solid foundation of discussion and promotion of research integrity has been established by these previous world conferences, and this tradition is curated by the World Conference on Research Integrity Foundation (WCRIF).

Now, Greece has the honour to welcome and host the 8th WCRI in Athens.

Main Conference Theme

Each WCRI emphasises a specific theme, but all cater for the whole range of research integrity issues and responsible research practices. The 8th WCRI will put thematic emphasis on

**Catalysing the translation of research into trustworthy policy and innovation**

We wish to spark a discussion among the different actors involved in the translation of research into outputs that affect the trustworthiness of policy and innovation. This discussion involves researchers from all scientific disciplines and policy and decision makers that use research in informing their decisions that are applied to industry and society more broadly. Starting from the assumption that societies are more directly affected by policy and innovation than by research per se, we will explore how research integrity fosters trustworthiness and research impact in terms of policy and innovation.
